#### FINANCE AND TRADE.

FINANCIAL AFFAIRS offer nothing new. Exchange remains at par buying on New York, selling at i premium; New Griesns buying at 1 discount, seliing at par. The New York Bulletin, of Wednesday, reports the following were the rates to-de's for New York exchange at the places named: Bavannsh, ‡ premi\_m; Charleston scarce, 1@1 prem-"m; Cincinnati dull, 1.10 discount; New Orleans, commercial, 1: bank, 1; Chicago, nominally, 503 to 603 premium, and St. Louis, 50c premium. The gold of hogs, 7000; September pork, \$17 30; market was heavy and lower to-day, the | September lard, 10 574c; September clear immediate cause having been the treasury sale of \$2,269,080 to-morrow. This amount of gold was paid to-day into the heavy break again on pork and lard, treasury by Messrs. Firk & Hatch, who bought the \$2.160,000 bonds sold Saturday. The United States sadstanttreasurer to-day paid out \$109,000 gold for interest, and \$3000 for five-twenties redeemed. The silver payments to day Silver in London were \$13,600. was reported by the bankers at 531d per ounce, as yester lay. There is no sign of any change at present; the stock of bullion in the Bank of England has reached the unprecedented figure of £33,000,000, while that in the Bank of France has risen as high as 83,000,000! These enormous accumulations speak volumes as mous accumulations speak volumes as the insulted flar stones of Front street, to the degression of trade. THE COTTON MARKET yesterday was drooping, ensiness showing itself in the markets, with a decline of to in New Or, eans, 1-16d in Liverpool spots, and 1-324 in deliveries. Our market was dull, only some spinner.' o ders filled. The cotton exchange received the folthe New York Chronicie: "More favorable, Improved reports from all sections on the Mississippl. Memphis bad better weatherthe dam ge was exaggerated. Little Rock, Vicksburg and Spreveport report favorable conditions. In the constrake lands of Alabama there is harm by the cate pilliars. The statement of Salma last week was correct—they telegraph to-night that caterpillars are webbed up. If the weather becomes hot and dry the evil would be arrested; if rainy there will be loss to crop in that vicinity. The Atlantic States give favorable reports." The warm, dry weather of the last two or three days will probably ir aprove the condition of the crop; but raowers were visible falling south of Memphis yesterday. We have received the excellent monthly Liver pool Cotton Cir-cular of Smith & Edwards, from which we gather the following: "The improvement in sliver, and consequently of Indian exchange, has affected Manchester beneficially, checking the tendency to short time. Spinners being out of cotton have bought fieldy, especially of American low cottons, which are comparatively cheap. Manche ter is doing more business and stocks ce working down. The statistical position of cotton is sound, and stocks will rapidly run down. The opinion is common that four and a quarter millions will be the American crop. The improvement in Manchester rests mainly on the price of silver and cotton exchange, but the lowest price, it is thought, has been touched, and cotton next season will be higher rather than lower; if not so, depression may return as bad as ever." Quotations at the Memphis cotton exchange were as follows: Yesterday. Day before
